

HSBC Customer Transaction Analysis

SQL-Based Banking Data Analysis

Presented by: Sambhav Das

Tools: MySQL | SQL | Data Analytics

Dataset: HSBC Banking Transactions

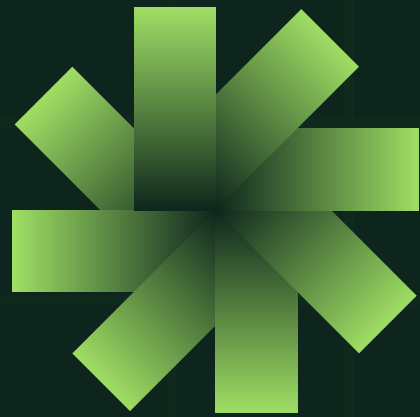

Business Problem & Objective

“How can transaction data help identify valuable customer segments, high-performing products, transaction channels and customer behavior?”

Objectives

- Analyze overall transaction performance
- Identify highest-value customer segments
- Compare employment types
- Understand credit-score-based transaction behavior
- Find top product & channel combinations
- Identify top customers by transaction value

Dataset & Key KPIs

994

Total Customers

₹1.44 Cr

Total Transaction Amount

60,749

Total Transaction Count

₹14,461.54

Average Transaction Amount

61.12

Average Transaction Count

Customer Segment Analysis

₹79.32 L

Retail Banking

₹30.36 L

Premier Banking

₹24.19 L

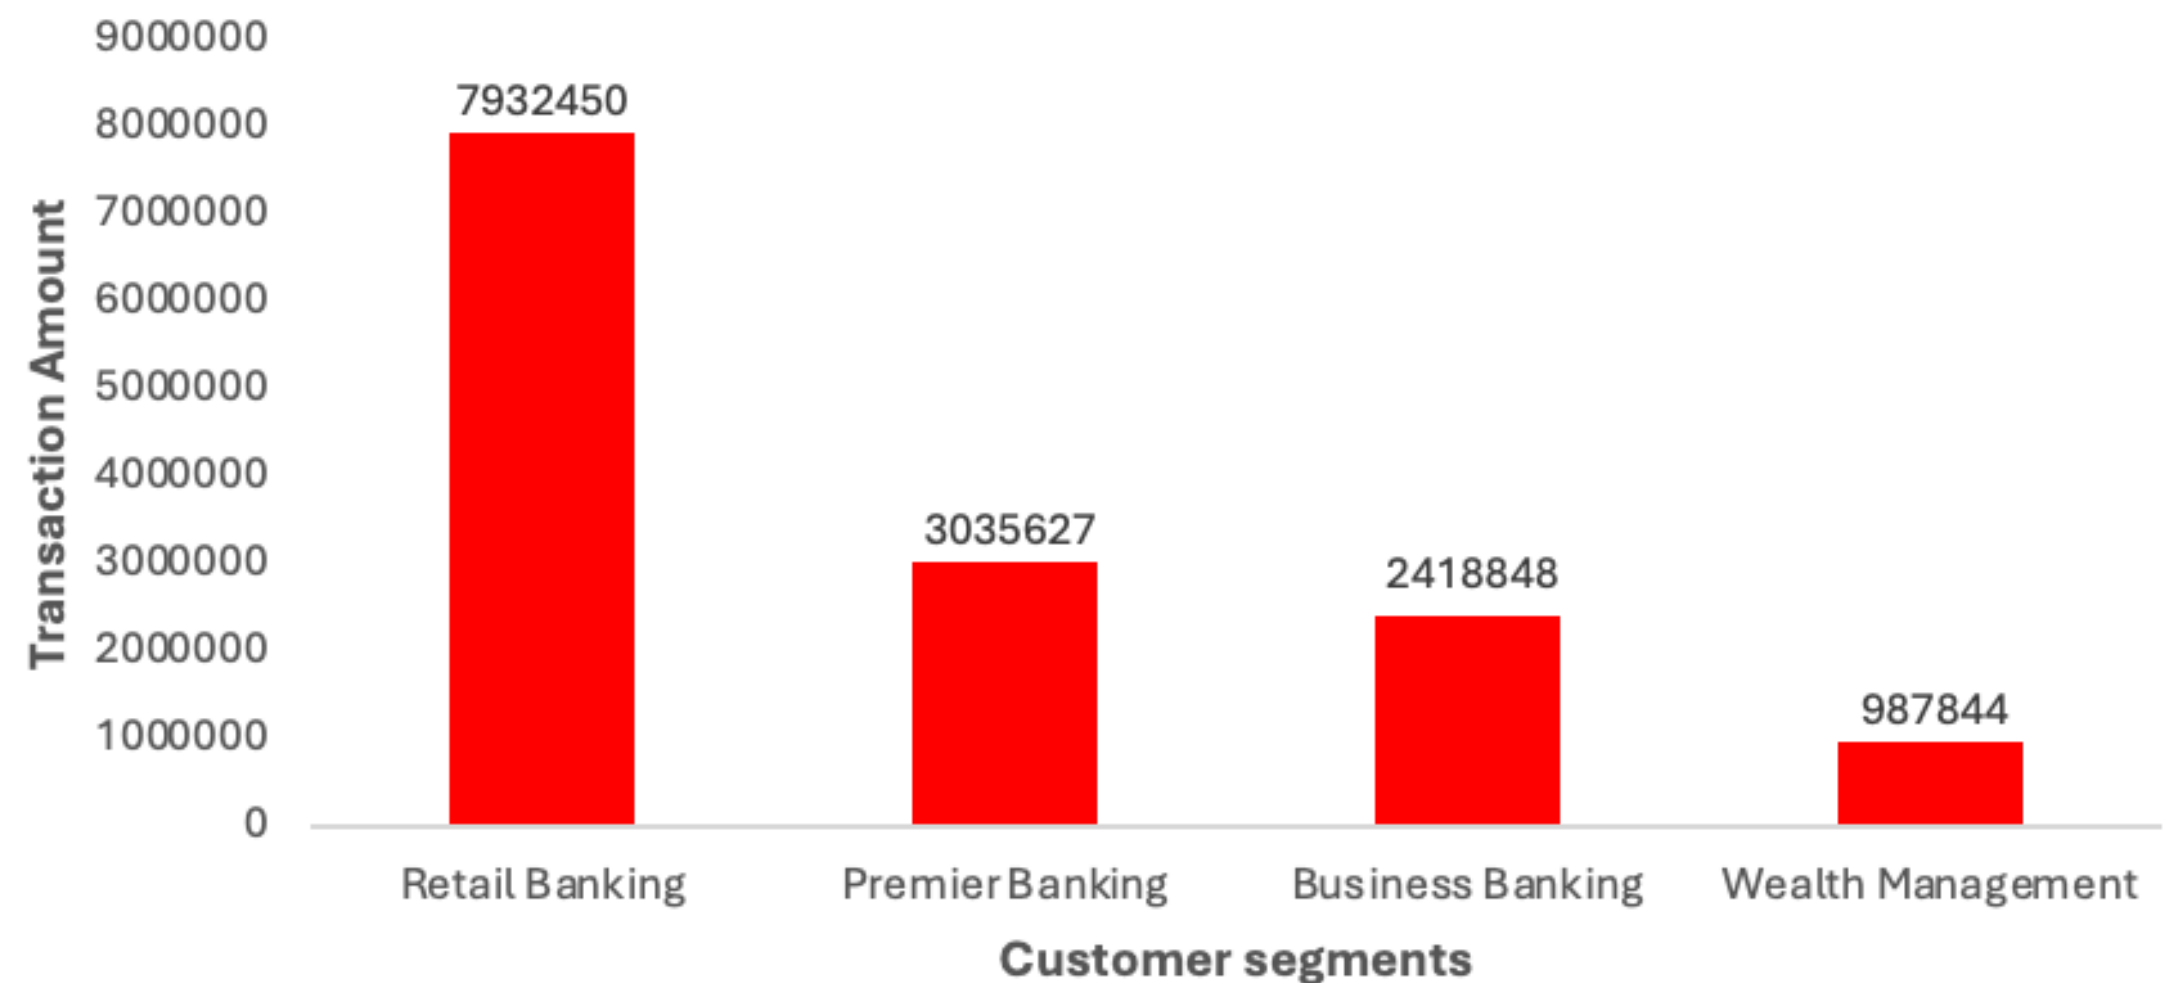

Business Banking

₹9.88 L

Wealth Management

HIGHEST TRANSACTIONS BY CUSTOMER SEGMENTS

Employment Type Analysis

Average Annual Income

₹23.88L

Professional

₹23.59L

Salaried

₹22.85L

Business Owner

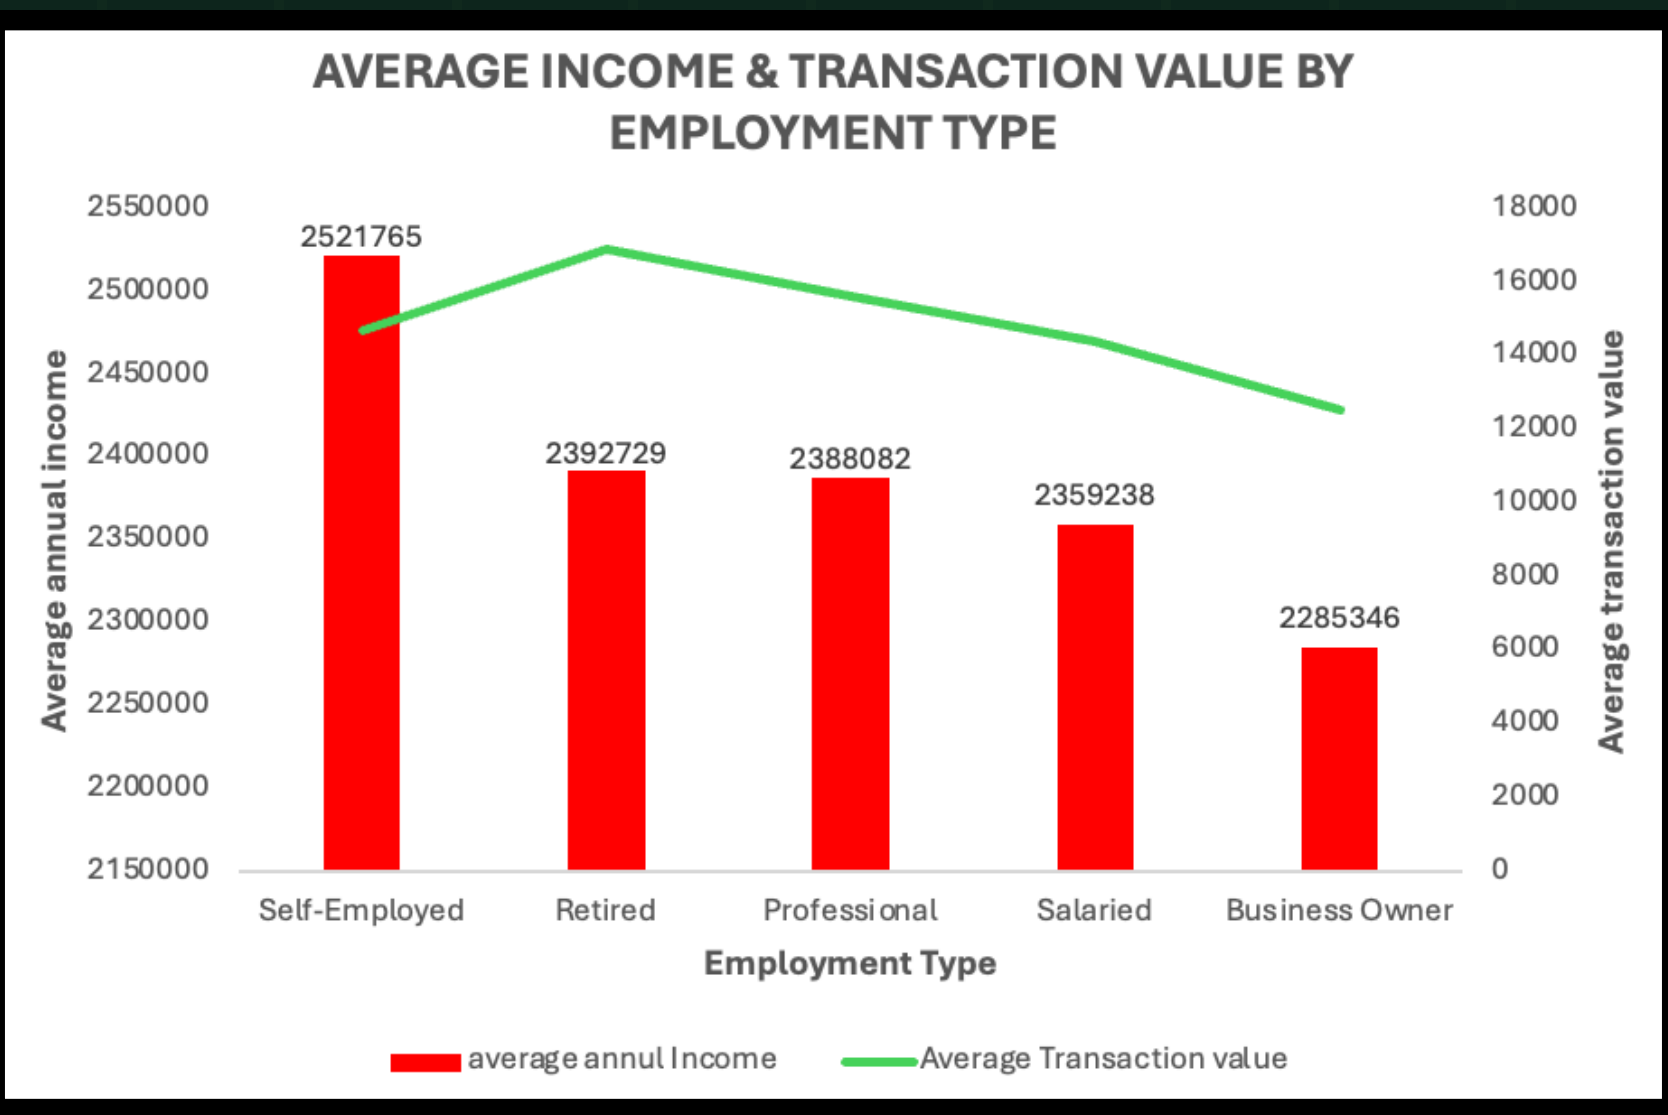

₹23.93L

Retired

₹25.22L

Self-Employed

Average Transaction Value

₹16,890.76

Retired

₹15,617.76

Professional

₹12,537.14

Business Owner

₹14,406.17

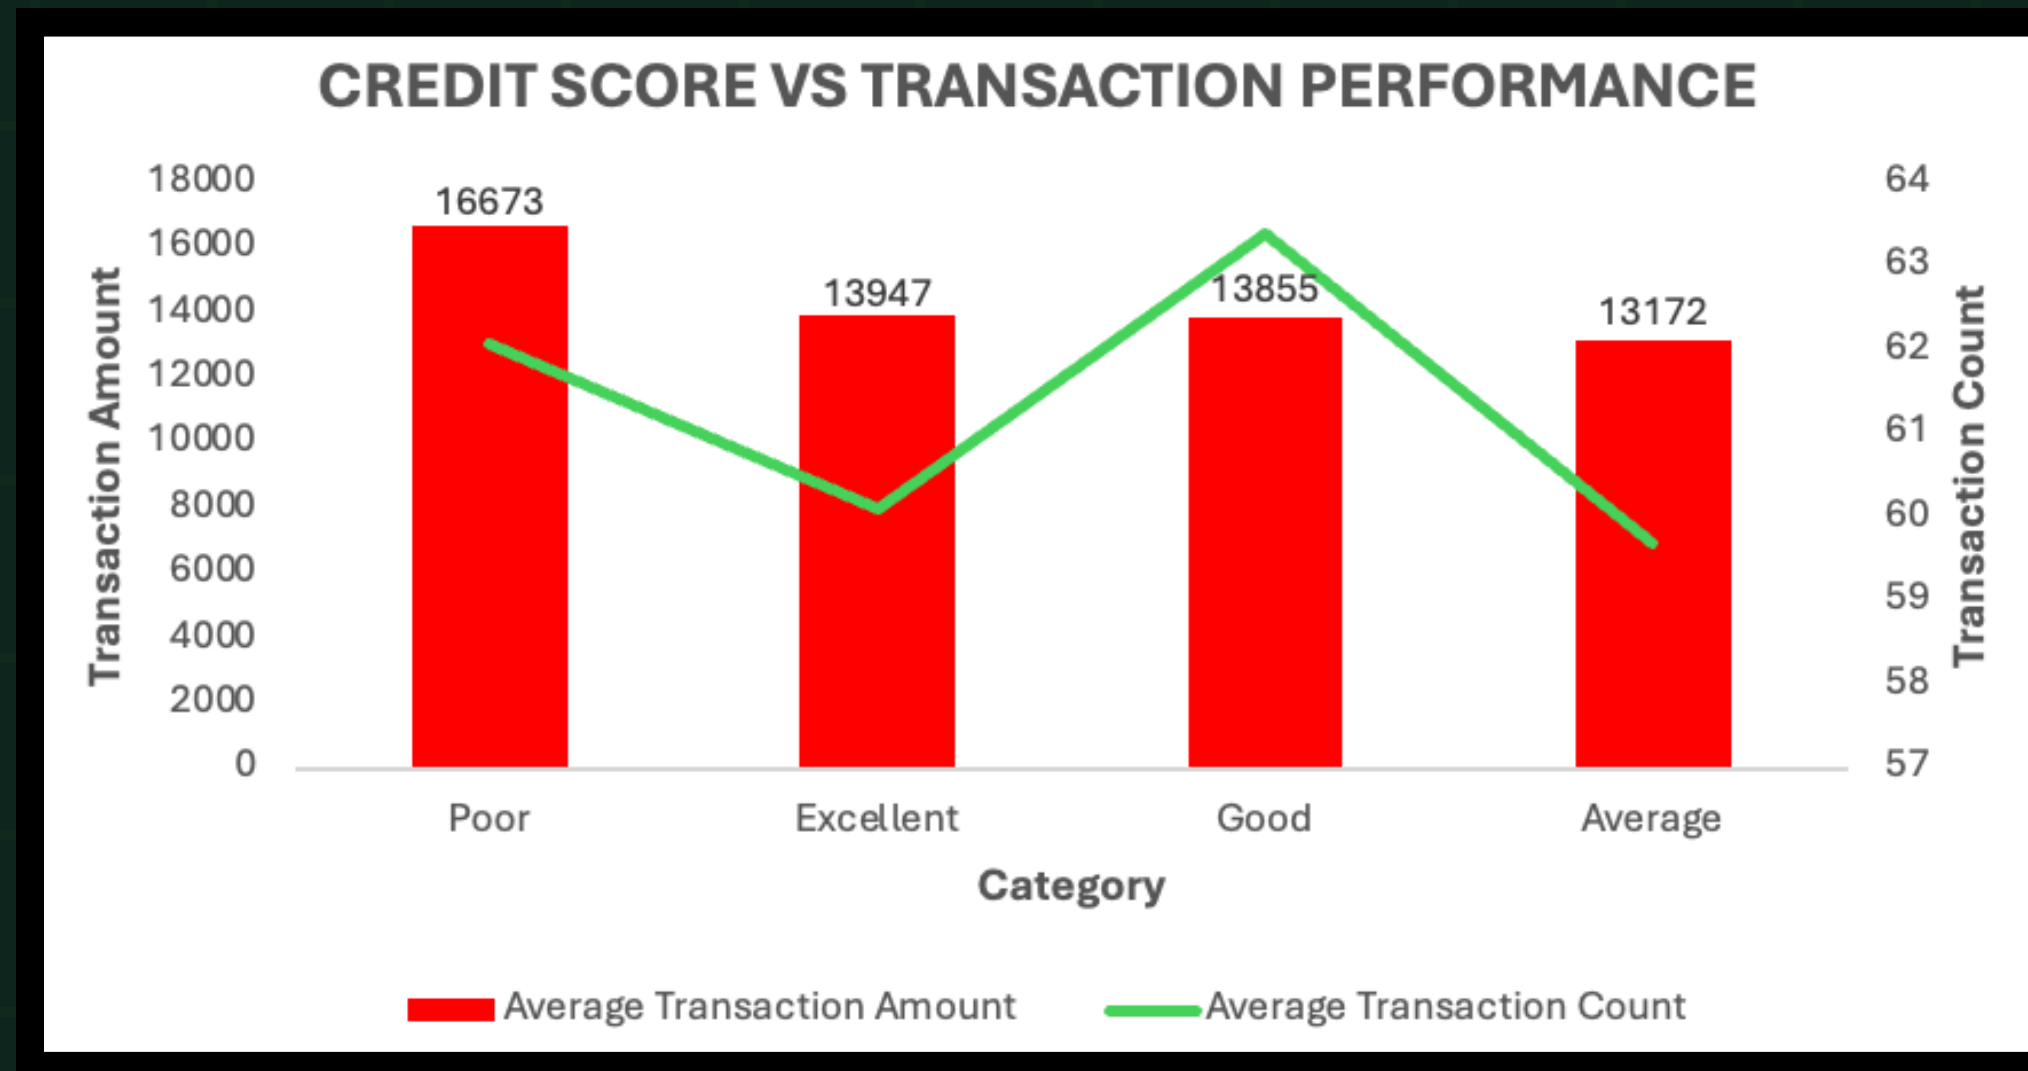

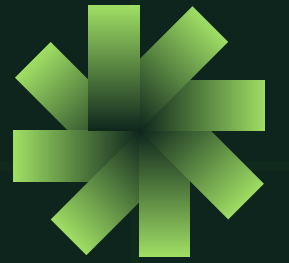

Salaried

₹14,686.30

Self-Employed

Credit Score vs Transaction Performance

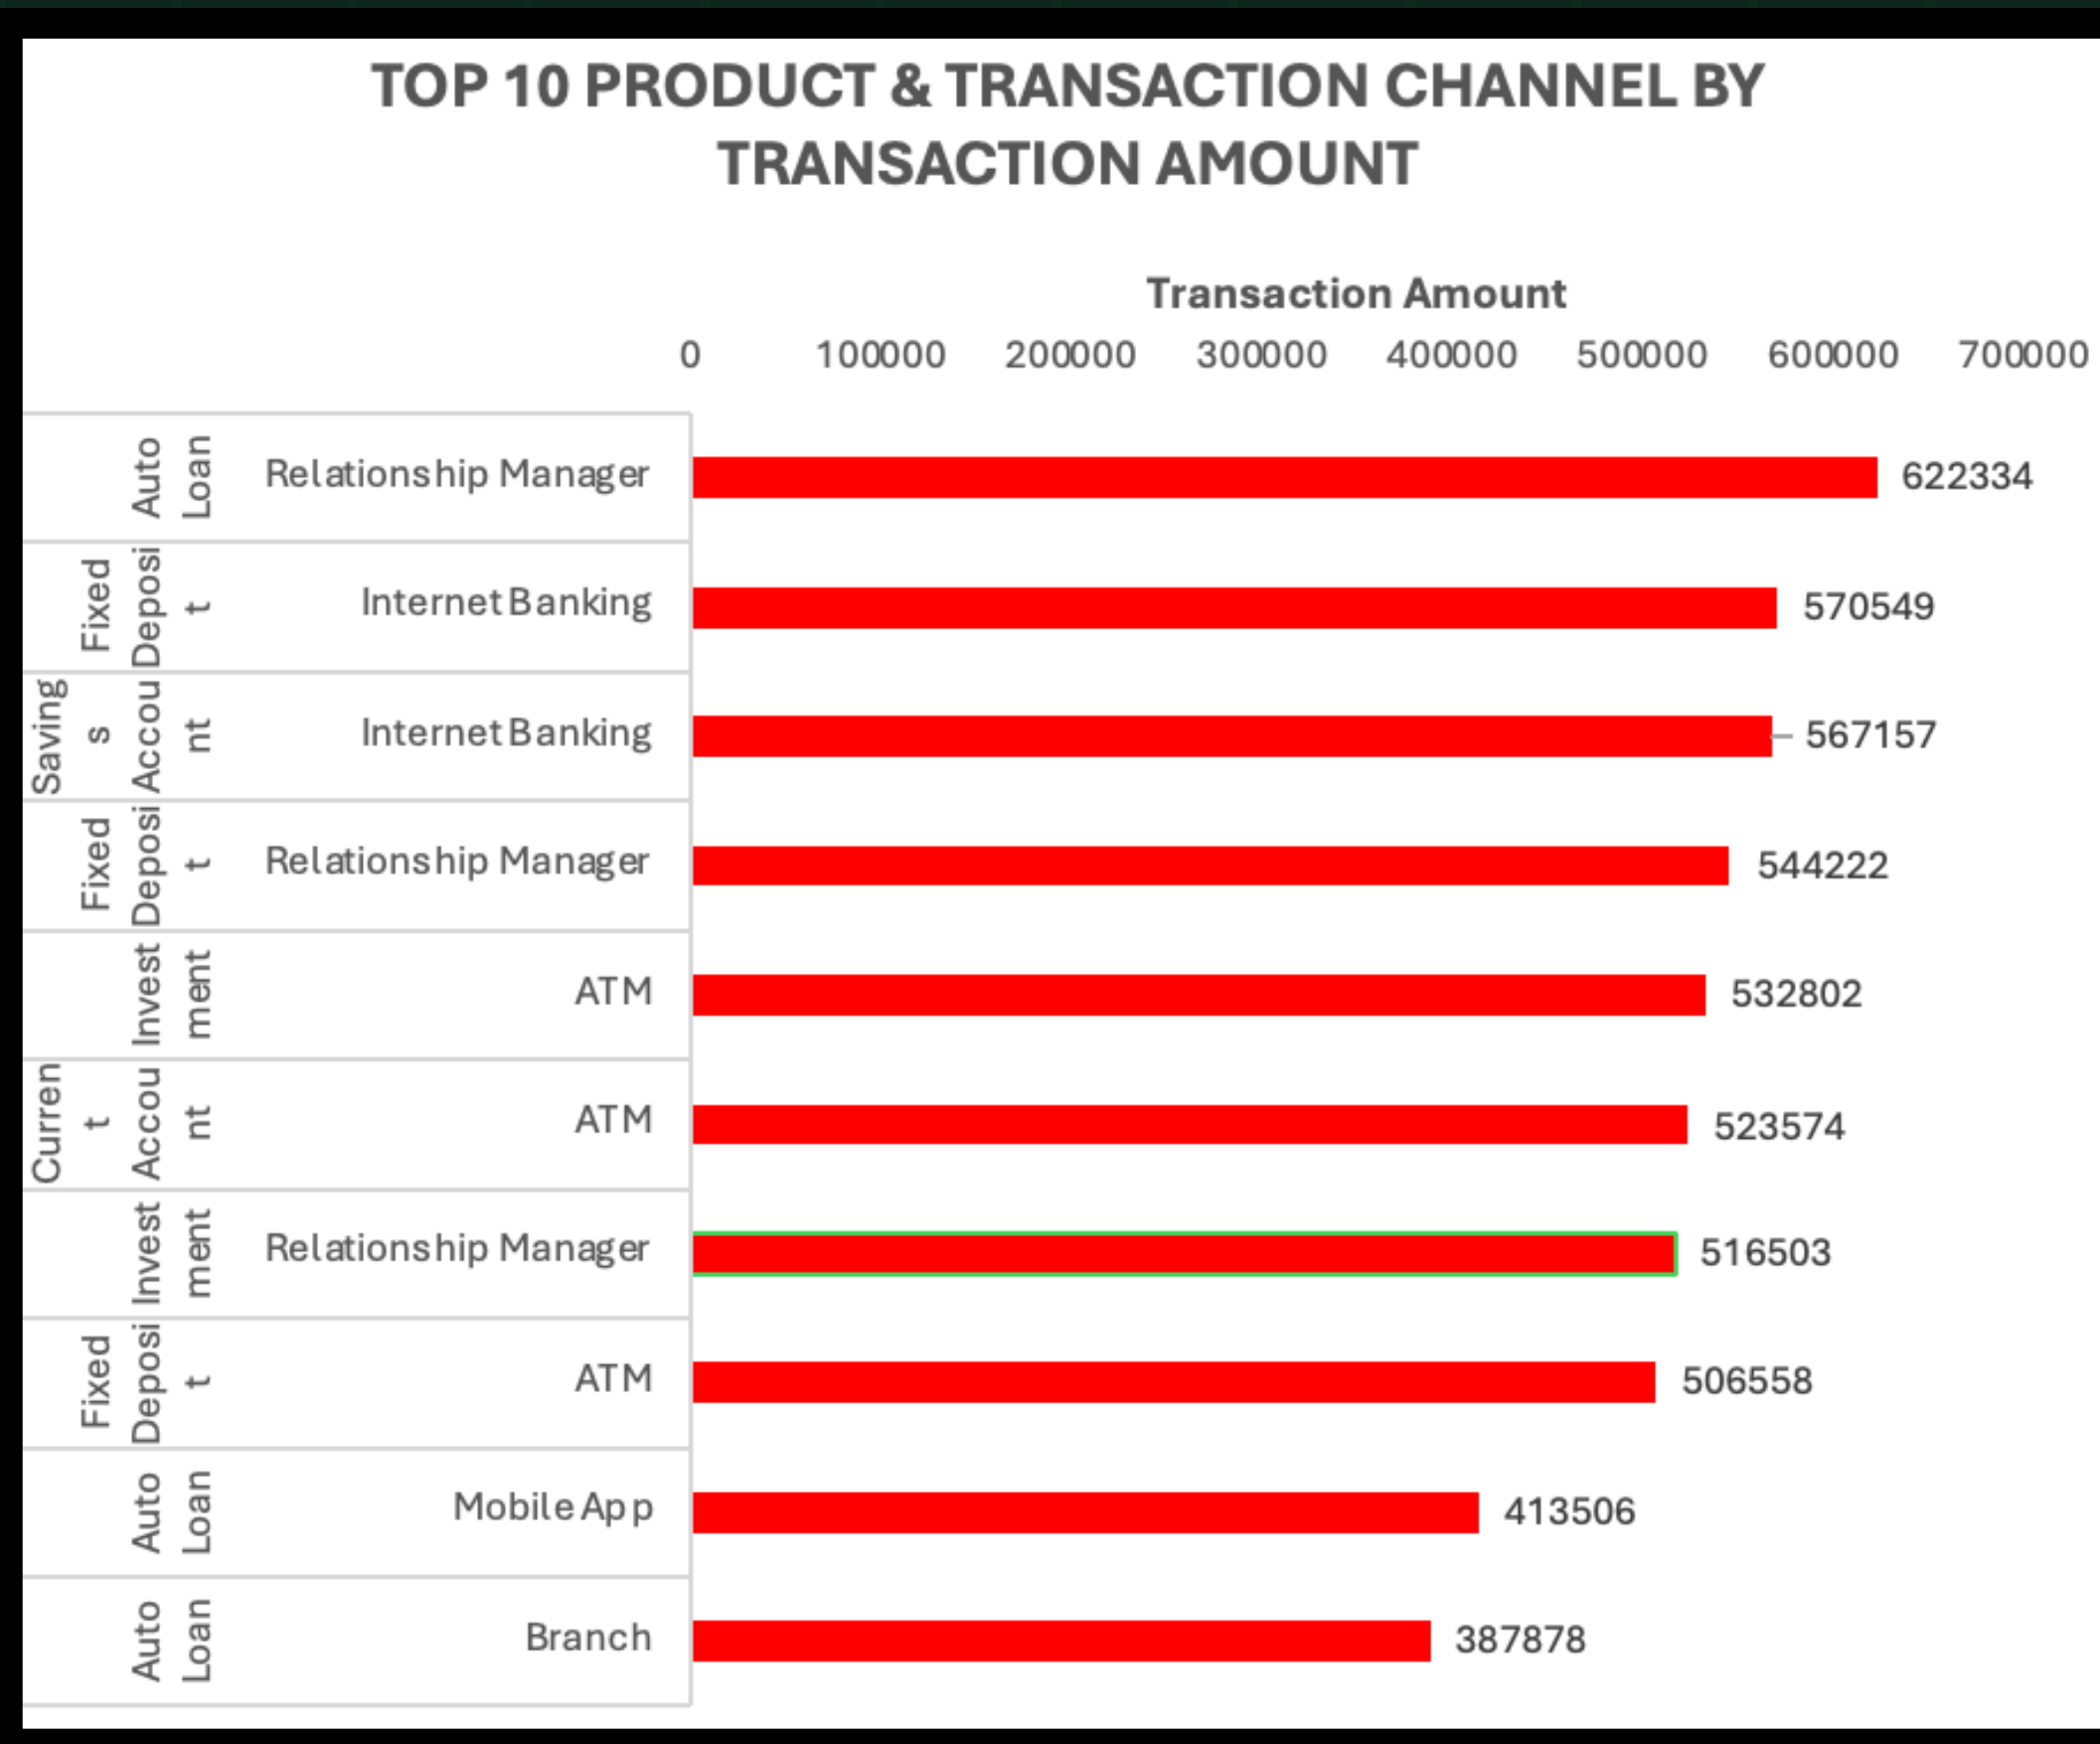

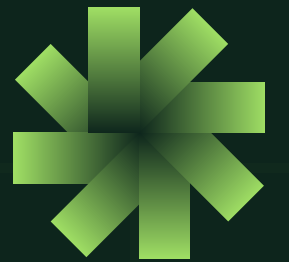

Highest Average Transaction Amount:
Poor — ₹16,673.31

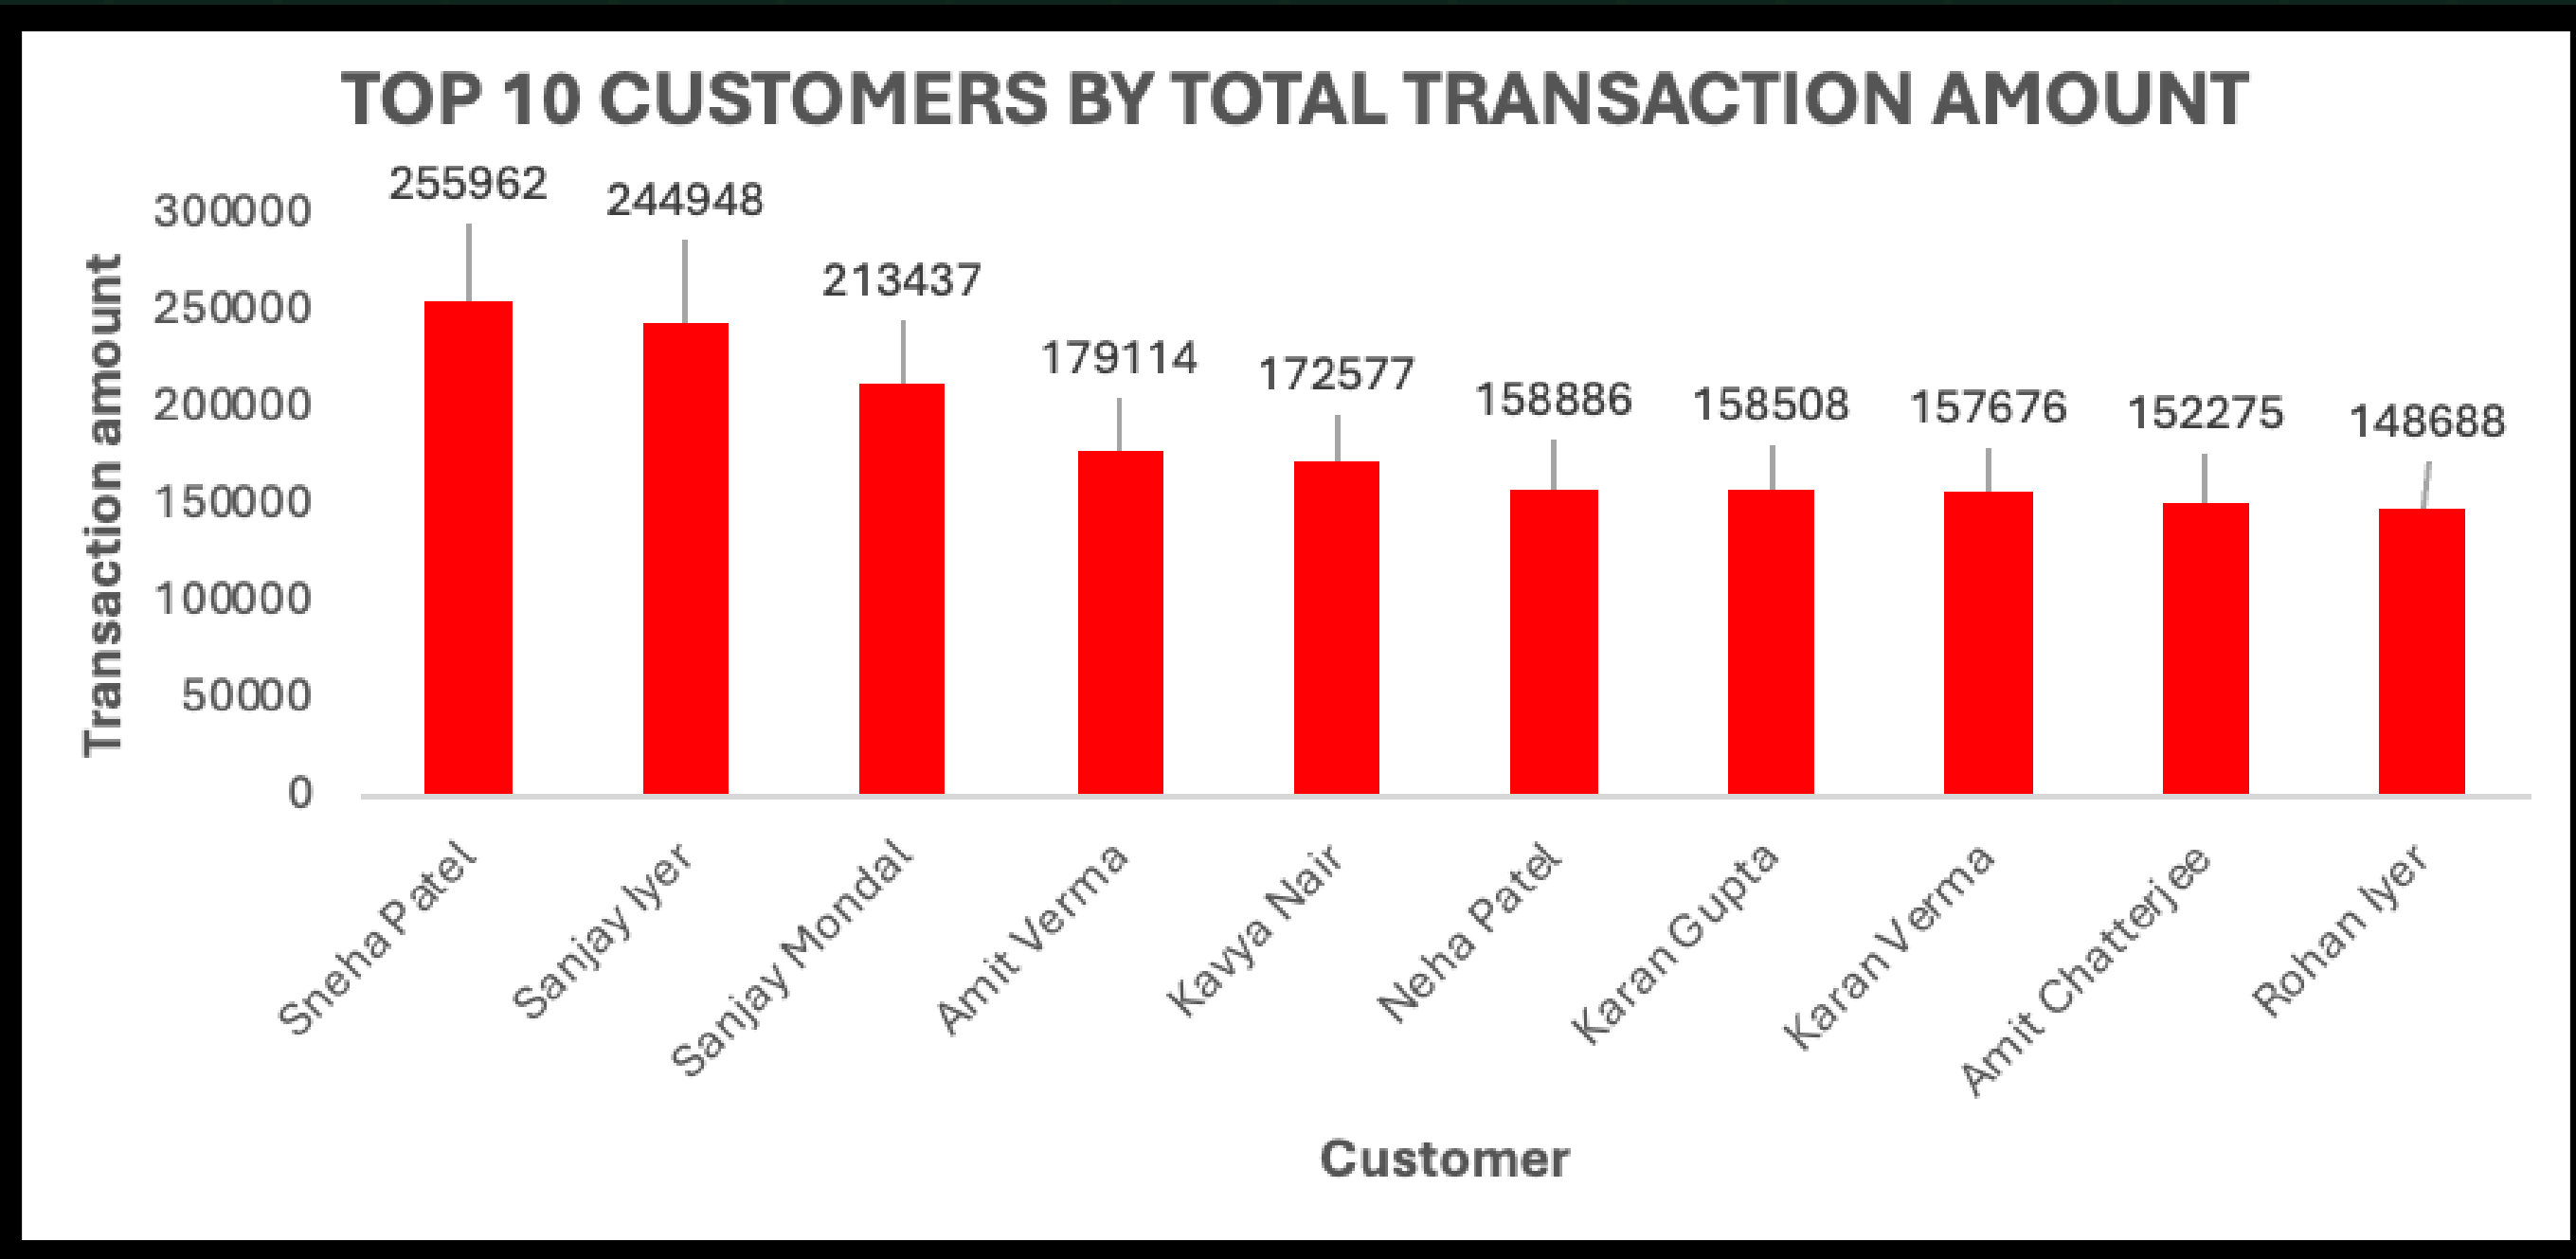

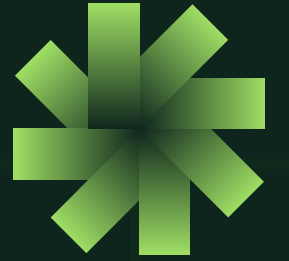

Highest Average Transaction Count:
Good — 63.40

Higher credit scores do not necessarily correspond to higher transaction values in this dataset.

Product & Transaction Channel Analysis

Top Customers & Final Insights

Sneha Patel

₹255,962.06

Sanjay Iyer

₹244,947.56

Sanjay Mondal

₹213,437.08

Key Takeaways

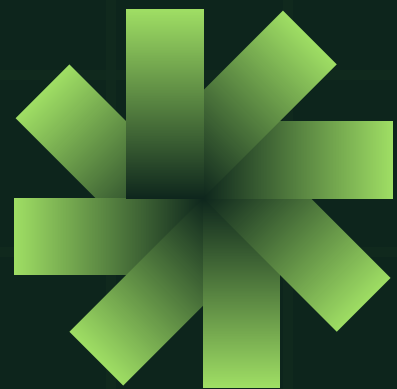

- 01 Retail Banking generates the highest transaction amount.**
- 02 Self-Employed customers have the highest average annual income.**
- 03 Retired customers show the highest average transaction value.**
- 04 Credit score does not show a simple positive relationship with transaction value.**
- 05 Certain Product × Channel combinations dominate transaction value.**
- 06 A small group of customers contributes significant transaction value.**

Recommendations

- **Focus more on Retail Banking, as it generates the highest transaction amount.**
- **Identify and retain high-value customers.**
- **Promote high-performing Product + Transaction Channel combinations.**
- **Understand the transaction behavior of different employment groups.**
- **Use customer transaction patterns for targeted banking offers.**
